DETAILED ACTION

Status of Claims

Claims 1-17 are currently pending in the application.

Status of Claim Objections

Applicant's amendment of claims 1 and 10, see Remarks, filed 1/16/2009, with respect to the objection set forth in the Non-Final Office Action mailed 10/16/2008, has been fully considered and the objection has been withdrawn.

Status of Rejections

35 USC § 103

The rejection of claims 1-17 under 35 USC 103(a) in the office action dated October 16, 2006 is maintained for the reasons of record.

Applicant's arguments of claims 1-17, see Remarks, filed 1/16/2009, with respect to the Non-Final Office Action mailed 10/16/2008, have been fully considered but are not persuasive.

Applicant's argument stems from the fact that Tamura teaches away from the claimed invention. Every element of applicant's claimed method of preparation is taught in the literature (see previous office action). The dealkalizing agent procedure mentioned by Tamura is also described in the Brach document (see page 1450, first column where the phthalocyanine is contacted with water or ethyl alcohol). Again, Tamura mentions that metal free phthalocyanines are obtained by treating partially hydrogenated alkali metal phthalocyanines with suitable hydrogen-substituting agents which include water and lower alcohols (see page 8, lines 4-6).

Thus, based on the teachings described in the previous office action, one of ordinary skill in the art would have a reasonable expectation of success in obtaining an improved synthetic process for the synthesis of substituted phthalocyanines by adding either one or both of the prior art reagents in combination (alkali metal hydroxides and their carbonates) to a similar process such as the one described by Brach.

Conclusion

No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
